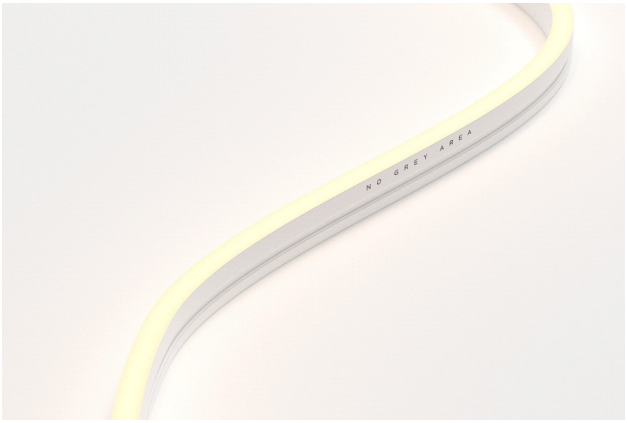
PRODUCT DESCRIPTION

This Medium Output Dynamic White Pixel Neon Flex features a rectangular cross-section and is designed for flexibility and visual elegance. Utilising DMX512 control, it enables flowing transitions and effects with pixel control over warm and cool whites.



PRODUCT NOTES

• Fusion Neon is typically supplied in custom cut lengths, but can also be supplied in reels up to a maximum length of 5m, with cables at both ends.

• The product is supplied with 5 mounting accessories per meter as standard, or available with an aluminium mounting channel upon request.

• When unreeling NGA's Neon Flex, two people must work together no more than 1.5 m apart. One supports the reel while the other feeds the Neon out for installation. This prevents twisting and protects the internal LEDs.
