NGA/LL/NF/40/360D/15/3000/67/HE

LED SPECIFICATION SHEET

PRODUCT DESCRIPTION

This Medium Output High Efficiency Neon Flex features a circular cross-section and is designed for flexibility and style. It delivers high-quality, wraparound illumination while offering energy-saving benefits to meet the demands of modern, sustainable lighting applications.

PRODUCT NOTES

- Fusion Neon is typically supplied in custom cut lengths, but can also be supplied in reels up to a maximum length of 5m, with cables at both ends.
- A range of mounting accessories are available to ensure easy and secure installation.
- Please note, the 360° Neon cannot be cut to size on site, so precise measurements are required prior to ordering.
- When unreeling NGA's Neon Flex, two people must work together no more than 1.5 m apart. One supports the reel while the other feeds the Neon out for installation. This prevents twisting and protects the internal LEDs.
